Counselor

Homeschool Coordinator

Administrative Staff

## BINGHAM ACADEMY

Located in the Horn of Africa in the Ethiopian capital of Addis Ababa, Bingham Academy is uniquely positioned to change the world for God's glory.

As a teacher at Bingham Academy, your mission field is your classroom and the hearts and minds of your students. Whether students are from Christian families and in search of discipleship and opportunities to grow in faith; or whether they are from families of non-Christian faith who don't yet know the Good News of the Gospel, the vehicle of excellent education provides ample opportunity to minister for the Kingdom. Our student body is comprised of missions families; Ethiopian families both national and diaspora; and complemented by our diplomatic families serving with the African Union, United Nations and national embassies throughout the city.

- Our Missions families are under-taking Kingdom work including Bible translation, church planting, evangelism, discipleship training and a variety of tent making projects such as medicine, water engineering, farming and agricultural development and business as missions. Statistically, children of missionaries are likely to return to missions work when they are adults.
- Our Ethiopian and diaspora families are influential now in Ethiopia. By providing education for these families we have an opportunity to encourage and support the development of Ethiopia and to share the Gospel with decision makers and influencers. The children of these families are likely to become the business and community leaders of Ethiopia's future.
- Diplomatic families are in Addis with a heart to improve internationalization both across Africa and globally. We support this work through the education of their children knowing that these families are changing the world today.

# A DAY IN THE LIFE

A day at Bingham starts with corporate prayer and devotions. From there we move to our classrooms and offices, participating in chapels, playground supervision, and Bible study alongside delivering the curriculum. Bingham Academy uses the Cambridge International Curriculum from Grades K – 12 and is accredited by ACSI and MSA, so you can be sure you're joining a first-class school. For many students the final school bell announces the start of extra-curricular activities and training in a variety of sports.

Whether at prayer, in the classroom or on the athletic field, serving at Bingham Academy offers many unique opportunities to equip generations to change the world for God's glory.
